

# YANA RONCHYK

UX/UI designer

## ABOUT ME

I can say with confidence that I have a great **desire & aspiration** to work as a UX/UI designer. I am inspired by this work. I don't have to beg myself to sit down and "start doing something" in Figma. **I just love it :)**

I'm a friendly person and I love people. I'm very active and I'm almost always in a good mood.

**I love life and want to share my mood through design!**

I have a clear attitude - **until I do my best - I won't give up.** I don't hang my nose, I accept problems and try to solve them. This is how I overcome challenges.

I really want to be part of the team, gain experience and work **for the future of the company!**

## EDUCATION

### **April-October 2021**

Course in ux/ui design with certification (one of the leading IT schools in the CIS countries)

### **01.10.2021 - 28.02.2025**

Collegium Da Vinci,  
specialty - computer science (Poznan, Poland)

## INTERESTS

In addition to a huge passion for UX/UI design, I really love music - I've been singing since childhood;)

**I love reading scientific literature.**

I'm interested in taking on complex tasks, so I'm studying to become a programmer to understand the whole process of creating a product.
